Profile

I support teams in fast-moving environments by keeping work organized, documented, and moving forward when priorities shift. I'm experienced in coordinating schedules, tracking details, and following up on next steps so work doesn't stall. My background across tech, recruiting, and retail has made me a clear communicator and a steady operator when things aren't fully defined.

Professional Experience

Starbucks | Shift Supervisor | Irvine, CA

Jan 2025 - Present

- Took ownership of shift execution, balancing staffing, priorities, and real-time issues to keep operations consistent during peak demand.
- Became a go-to lead for onboarding and daily operations, helping new team members settle into routines and perform confidently on the floor.
- Developed a practical sense for demand and prep flow, making day-to-day adjustments that reduced friction for customers and the team.

Ambient Property Technologies | Client Account Support Specialist | Remote

Jan 2024 - Jan 2025

- Joined a fast-scaling property technology company and took ownership of complex client workflows across multiple properties.
- Supported internal teams by documenting workflows, tracking recurring issues, and coordinating follow-ups to keep operations on track.
- Managed a high-volume support queue while tracking case status and maintaining clear communication with clients and internal teams.
- Identified recurring issues and collaborated with the team to streamline responses, reducing unnecessary back-and-forth communication.
- Stepped in beyond core support responsibilities to assist internal recruiting efforts, supporting interview coordination and evaluations through Greenhouse.

Merge IT | Resource Manager | Remote

Feb 2022 - Jan 2024

- Pivoted from retail into technical recruiting, building working knowledge of IT roles and hiring needs while supporting enterprise clients like Disney, Morgan Stanley, and Johnson & Johnson.
- Ran full-cycle recruiting for contract and contract to hire roles, serving as a steady point of contact for both candidates and hiring managers.
- Supported candidates through competitive interview processes by clarifying expectations, strengthening positioning, and adapting sourcing approaches for hard to fill roles and remote markets.

Apple Inc. | San Francisco & Mission Viejo, CA

Product Specialist | Product Expert | Store Lead | Technical Expert

Nov 2016 - Feb 2022

- Progressed through four roles as responsibilities expanded from frontline support to technical escalation and store-wide execution support.

- Operated in high traffic retail environments where priorities shifted constantly, partnering with leadership to keep teams aligned during peak periods.
- Served as a trusted escalation point for complex technical and customer situations, balancing technical accuracy with customer experience.
- Supported major product launches by helping teams prepare, align, and execute with fewer delays.
- Translated technical complexity into clear, outcome-focused guidance that helped customers adopt products with confidence.

Education

Bachelor of Science in Public Health

San Francisco State University - San Francisco, CA
